Education

University of Michigan

Bachelor's of Science, Information. UX Design

GPA: 3.84

Ann Arbor, MI

Aug 2025 - May 2028

Indiana University

Bachelor's of Science, Informatics.

GPA: 3.66

Bloomington, IN

Jan 2024 - May 2025

Work Experience

MDining

Service Worker (Part Time)

Ann Arbor, MI

Jan 2026 - Apr 2026

Executed high-volume dinner service across table and counter stations, maintaining food safety standards and a fast-paced production rhythm throughout each shift. Managed closing procedures independently: resetting tables, cleaning up, stacking seating, and restocking supplies; to ensure the dining hall was prepared for the following day.

CodeDay

Product Designer (Contract)

Remote

Jul 2024 - Aug 2024

Developed a cohesive doodle-style visual identity alongside one collaborator, introducing an original duck character that the founder selected for commercial merchandise. Designed commissioned artwork for a branded product bottle sold on the CodeDay website, delivering polished vector assets within a short contract engagement.

Volunteer Experience

CodeDay Kolkata 2023, 2024

Co-Designer

Remote

Feb 2023 - Aug 2024

Designed and produced the complete creative suite for two consecutive annual events: banners, flyers, posters, postcards, ID cards, zines, standees, stickers, badges, T-shirts, and presentations. Created all social media content end-to-end as one of two designers responsible for every visual touchpoint of the event.

Leadership & Activities

ByteClub

Head of Creative

Remote

Nov 2025 - Present

Co-founded an initiative connecting skilled high-school students with NGOs unable to afford design and development talent, creating a mutually beneficial pro-bono situation. Launched a first cohort of 10 students across two NGO partnerships in Lucknow, India. Currently scaling the programme globally with a new cohort in progress. Coordinating a weekly workshop series featuring practitioners from top universities and industry to provide mentorship and professional development to student cohort members.

Nuclear

Designer

Remote

May 2025 - Aug 2025

Co-founded Nuclear through the McGill Engine TechAccel accelerator. We built an adaptive note-taking editor, with personalised quizzing, and learner-profile modelling to help tutor themselves. Contributed across product ideation, UX flows, and visual design over a full summer sprint before the project was discontinued following new launches by mainstream AI tools.

Unsplash Photography

Remote
May 2024 - Present

Publish and maintain a portfolio of 205 photographs on Unsplash, accumulating 700K+ all-time views and 7,500+ downloads; current monthly reach of ~80K views and ~500 downloads.

Academic Experiences

SI 350: UX Field Research in the Public Sector Scott Tenbrink

Ann Arbor, MI
Winter 2026

Conducted public field research in collaboration with the City of Ann Arbor's Department of Communications to investigate low civic engagement among student residents. Co-developed a few actionable solutions towards the end with the department head with a chunk of them slated for implementation before Fall 2026.

SI 394: Automotive UX James Rampton

Ann Arbor, MI
Fall 2025

Designed a battery efficiency focused software system and full UX prototype for the Jeep Avenger EV 2024 in a two-person team, as part of a course partnership with Stellantis. Pitched concept directly to Stellantis stakeholders after receiving access to specific vehicle models to inform the design.

SI 342: Games and UX Natalie Fang

Ann Arbor, MI
Winter 2026

Playtested and analysed early-game flow of Stardew Valley to identify onboarding gaps; project ranked highest among 9 teams in the class. Ideated and produced concept art and a publishing deck for an original game as part of a 5-person team, pitching to real investors and game developers; ranked second among 7 teams.

SI 307: Introduction to UX James Rampton

Ann Arbor, MI
Fall 2025

Redesigned UMich's AI chat platform (UM-GPT). 1 of 5 students selected mid-semester for a showcase, and 1 of 5 invited to present feature-rich UX prototype directly to the platform's lead developer (Micheal Hess) at end of semester.

SI 303: Introduction to Qualitative Research Gabriela Marcu

Ann Arbor, MI
Winter 2026

Conducted extensive qualitative research through user interviews on fashion acquisition behaviour, then performed comparative usability testing of desktop web versions of UNIQLO against H&M, GAP, and ZARA.
